## PROGRAM SUMMARY

The NACC Pharmacy Assistant 2024 program at Central College of Business & Technology in Mississauga prepares students to enter the pharmacy sector with confidence and competence. This diploma program follows the professional framework established by the National Association of Career Colleges and adheres to recognized standards across Canada.

## CAREER OPPORTUNITIES

Graduates of the NACC Pharmacy Assistant 2024 program are prepared for rewarding careers in community and hospital pharmacies, long-term care facilities, and retail settings. Combining technical training in Pharmacy Software, Billing, Pharmaceutical Calculations, and Compounding with a strong foundation in the Canadian Healthcare System, Ethics and Law, and Medical Terminology, students develop the precision and professionalism required to support pharmacists effectively. Hands-on experience through Community Pharmacy Dispensing, Institutional Pharmacy, and a Practicum Placement ensures a confident transition from the classroom into the workforce.
